I am a mechanical engineering student at the University of Alberta looking for either part time or full-time technical work this summer. My diverse technical skills include programming, networking, and general handiwork, and I have excellent communication and interpersonal skills too. Both my driving and criminal record are spotless, and you can expect me to be punctual, presentable, and organized. I hope to hear back from you soon!

Skills

General handiwork including metal fabrication, woodwork, and electrical work

Computer skills including coding in MATLAB, general networking, Arduino, office software and more

Excellent interpersonal and communication skills

Effective troubleshooting and problem solving skills

Professional Experience

Quantum Productions – Event DJ (*June 2013 – August 2015*)

Provided music and entertainment for weddings, corporate parties and public events

Performed onsite setup, takedown, and programming of large lighting and sound systems

Made announcements and short prepared speeches to large crowds

Worked long shifts and late nights with tight deadlines all over Alberta

Wine & Beyond – Beer Sales Associate (*May 2014 – December 2014*)

Assisted customers in finding and tasting alcoholic beverages

Performed inventory tasks, cleaned, and maintained keg system

Education

University of Alberta – Bachelors of Mechanical Engineering (*2011-2017 expected*)

Corresponding Secretary – Zeta Psi Fraternity, Mu Theta Chapter (2016-2017)

Steering Design Lead – EcoCar (2012-2013)

Strathcona High School – Diploma with Honours (*2008-2011*)
